The screenshot shows the Voki character creation interface. On the left, there are buttons for "Add To Your Site" and "Send To A Friend". The main area is titled "Select the size of the player to embed in your site:" and has a dropdown menu set to "Small (100 x 133)". Below this, it says "Then grab your code and place it on your page!". There are buttons for "Post" and "Bookmark", followed by a grid of social media sharing icons. Below the icons is a section titled "Embed code:" with a copy icon. The embed code is:

```
pluginspage="http://www.adobe.com/shockwave/download/download.cgi?P1_Prod_Version=ShockwaveFlash" type="application/x-shockwave-flash" name="widget_name"></object>
```

 Below the code is a section titled "Or, get your Voki link here:" with a dropdown menu set to "Standard Voki link". Below that is a text box containing the URL: <http://www.voki.com/pickup.php?scid=3305694&h>

5. Choisis la taille de ton fichier (small, medium ou large) et copie le EMBED CODE afin de pouvoir le coller dans l'emplacement prévu à cet effet dans Moodle.

6. Colle le code dans Moodle. Pour cela, active le mode code HTML dans l'emplacement prévu et enregistre.
