Simulator Programming, Podcasting, & Wikis

SUSIE & HALL SIMULATORS

- Automatic or Instructor control
- Use preprogrammed scenarios, modify them, or create your own
- Go between physiologic states in response to the interventions
- Change conditions such as heart rate and blood pressure directly
- Link "Palette" items to build a linear or branching scenario
- Pause the scenario or jump to the next critical decision point

Podcasting Workshop

Podcasting provides a new and exciting way for teachers to explore, create, and deliver educational content.

Educational Uses of Wikis

This workshop will explain and show:
How a wiki works
Pedagogical classroom uses of wikis
Real example of how a wiki can be used by nursing faculty

**Come learn,
play and have
fun in a stress
free learning
environment.**
